

AN INTERNATIONAL CODE

# 2007 ASME Boiler & Pressure Vessel Code

2007 Edition

July 1, 2007

## III

### Division 1 – Subsection NF

### Supports

## RULES FOR CONSTRUCTION OF NUCLEAR FACILITY COMPONENTS

ASME Boiler and Pressure Vessel Committee  
Subcommittee on Nuclear Power

The American Society of  
Mechanical Engineers

# CONTENTS

Foreword .....		xi
Statements of Policy .....		xiii
Personnel .....		xv
Organization of Section III .....		xxvii
Summary of Changes .....		xxix
List of Changes in BC Order .....		xxxi
<b>Article NF-1000</b>	<b>Introduction</b> .....	1
NF-1100	Scope and General Requirements .....	1
NF-1110	Aspects of Construction Covered by These Rules .....	1
NF-1120	Rules for Supports and Their Classification .....	1
NF-1130	Boundaries of Jurisdiction .....	2
NF-1200	Types of Supports and Attachments .....	2
NF-1210	Types of Supports .....	2
NF-1230	Welding Between Types of Supports .....	8
<b>Figures</b>		
NF-1132-1	Typical Examples of Jurisdictional Boundaries Between Piping Supports and the Building Structure .....	3
NF-1132-2	Typical Example of Jurisdictional Boundary Between Component Support and the Building Structure .....	6
NF-1214-1	Typical Standard Support Units .....	7
<b>Article NF-2000</b>	<b>Material</b> .....	9
NF-2100	General Requirements for Material .....	9
NF-2110	Scope of Principal Terms Employed .....	9
NF-2120	Support Material .....	9
NF-2130	Certification of Material .....	11
NF-2140	Welding Material .....	11
NF-2150	Material Identification .....	11
NF-2160	Deterioration of Material in Service .....	11
NF-2170	Heat Treatment to Enhance Impact Properties .....	11
NF-2180	Procedures for Heat Treatment of Material .....	11
NF-2200	Material Test Coupons and Specimens for Ferritic Steel Material .....	11
NF-2210	Heat Treatment Requirements .....	11
NF-2220	Procedure for Obtaining Test Coupons and Specimens for Quenched and Tempered Material .....	12
NF-2300	Fracture Toughness Requirements for Material .....	14
NF-2310	Material to Be Impact Tested .....	14
NF-2320	Impact Test Procedures .....	15
NF-2330	Test Requirements and Acceptance Standards .....	15
NF-2340	Number of Impact Tests Required .....	18
NF-2350	Retests .....	19
NF-2360	Calibration of Instruments and Equipment .....	22
NF-2400	Welding Material .....	22
NF-2410	General Requirements .....	22

NF-2420	Required Tests .....	22
NF-2430	Weld Metal Tests .....	23
NF-2440	Storage and Handling of Welding Material .....	26
NF-2500	Examination and Repair of Material .....	26
NF-2510	Examination and Repair of Material Other Than Bolting .....	26
NF-2520	Required Examination and Acceptance Standards for Class 1 Springs .....	26
NF-2530	Required Examination and Acceptance Standards for Coiled Wire Rope Used as a Spring .....	26
NF-2580	Examination of Bolting Material and Rods .....	26
NF-2600	Material Manufacturer's Quality System Programs .....	28
NF-2610	Documentation and Maintenance of Quality System Programs .....	28
 <b>Figures</b>		
NF-2311(b)-1	Impact Test Exemption Curves for Materials for Class 2, 3, and MC Supports .....	16
NF-2331(a)-1	Required $C_v$ Energy Values for Class 2 and MC Support Material Other Than Bolting .....	20
NF-2331(a)-2	Required $C_v$ Energy Values for Class 3 Support Material Other Than Bolting .....	21
NF-2433.1-1	Delta Ferrite Content .....	27
 <b>Tables</b>		
NF-2121(a)-1	Material Tables Required for Supports .....	10
NF-2311(b)-1	Exemptions From Impact Testing Under NF-2311(b)(9) and (10) for Material Thickness to 2½ in. (64 mm), Inclusive .....	15
NF-2331(a)-1	Required $C_v$ Lateral Expansion Values for Class 1 Support Material Other Than Bolting .....	18
NF-2331(a)-2	Required $C_v$ Lateral Expansion Values for Class 2 and MC Support Material Other Than Bolting .....	18
NF-2331(a)-3	Required $C_v$ Lateral Expansion Values for Class 3 Support Material Other Than Bolting .....	18
NF-2331(a)-4	Required $C_v$ Energy Values for Class 1 Support Material Other Than Bolting .....	19
NF-2333-1	Required $C_v$ Values for Bolting Material .....	22
NF-2432.1-1	Sampling of Welding Materials for Chemical Analysis .....	25
NF-2432.2(a)-1	Welding Material Chemical Analysis .....	25
<b>Article NF-3000</b>	<b>Design</b> .....	29
NF-3100	General Design Requirements .....	29
NF-3110	Loading Criteria .....	29
NF-3120	Design Considerations .....	29
NF-3130	General Design Requirements .....	31
NF-3140	General Design Procedures .....	32
NF-3200	Design Rules for Plate- and Shell-Type Supports .....	33
NF-3210	General Requirements .....	33
NF-3220	Design by Analysis for Class 1 .....	34
NF-3250	Design by Analysis for Class 2 and MC .....	39
NF-3260	Design by Analysis for Class 3 .....	42
NF-3270	Experimental Stress Analysis .....	42
NF-3280	Design by Load Rating .....	42
NF-3300	Design Rules for Linear-Type Supports .....	43
NF-3310	General Requirements .....	43
NF-3320	Design by Linear Elastic Analysis for Class 1 .....	46
NF-3330	High Cycle Fatigue Design for Class 1 .....	67

NF-3340	Limit Analysis Design for Class 1 .....	74
NF-3350	Design by Analysis for Class 2 and MC .....	77
NF-3360	Design by Analysis for Class 3 .....	77
NF-3370	Experimental Stress Analysis .....	77
NF-3380	Design by Load Rating .....	77
NF-3400	Design Rules for Standard Supports .....	78
NF-3410	General Requirements .....	78
NF-3420	Design by Analysis for Class 1 .....	79
NF-3450	Design by Analysis for Class 2 .....	81
NF-3460	Design by Analysis for Class 3 .....	81
NF-3470	Design by Experimental Stress Analysis .....	81
NF-3480	Procedure for Load Rating .....	81
NF-3500	Design Rules for Component Supports .....	81
NF-3510	General Requirements .....	81
NF-3520	Design by Analysis for Class 1 .....	81
NF-3550	Design by Analysis for Class 2, 3, and MC .....	81
NF-3570	Experimental Stress Analysis .....	82
NF-3580	Design by Load Rating .....	82
NF-3600	Design Rules for Piping Supports .....	83
NF-3610	General Requirements .....	83
NF-3620	Design by Analysis for Class 1 .....	85
NF-3650	Design by Analysis for Class 2 and 3 .....	85
NF-3670	Experimental Stress Analysis .....	85
NF-3680	Design by Load Rating .....	85

**Figures**

NF-3226.1-1	Permissible Welded Joints for Class 1 Plate- and Shell-Type Supports .....	37
NF-3226.1(a)-1	Typical Weld Details Referenced .....	38
NF-3226.1(a)-2	Butt Welding of Plates of Unequal Thickness .....	39
NF-3256.1-1	Permissible Welded Joints for Class 2, 3, and MC Plate- and Shell-Type Supports .....	41
NF-3324.1(a)(1)	Typical Friction-Type Connections Using High Strength Bolts .....	61
NF-3332.3-1	Illustrative Examples .....	72
NF-3426.1-1	Additional Permissible Welded Joints for Class 1 Standard Supports .....	80
NF-3626(a)-1	Additional Permissible Welded Joints for Class 1 Piping Supports .....	87

**Tables**

NF-3131(a)-1	Reference Paragraphs for Procedures for Design of Component Supports, Piping Supports, and Standard Supports .....	32
NF-3132-1	Dimensional Standards .....	33
NF-3225.2-1	Stress Limit Factors for Class 1, 2, 3, and MC Bolt Design by Analysis .....	36
NF-3322.2(e)(2)-1	Limiting Proportions for Channels and Tees .....	53
NF-3324.5(a)-1	Allowable Stress Limits for Class 1 Linear-Type Support Welds .....	63
NF-3324.6(a)(4)-1	Effective Slip Coefficient Versus Surface Condition .....	66
NF-3324.6(b)(1)-1	Minimum Edge Distances .....	67
NF-3332.2-1	Classification of Loading Conditions .....	67
NF-3332.3-1	Stress Categories .....	68
NF-3332.4-1	Allowable Stress Ranges .....	75
NF-3522(b)-1	Elastic Analysis Stress Categories and Stress Limit Factors for Class 1 Plate- and Shell-Type Supports Designed by Analysis — Component Supports .....	82
NF-3523(b)-1	Elastic Analysis Stress Categories and Stress Limit Factors for Class 1, 2, 3, and MC Linear-Type Supports Designed by Analysis — Component Supports .....	83

NF-3552(b)-1	Elastic Analysis Stress Categories and Stress Limit Factors for Class 2, 3, and MC Plate- and Shell-Type Supports Designed by Analysis — Component Supports.....	84
NF-3611-1	Suggested Piping Support Spacing.....	84
NF-3622(b)-1	Elastic Analysis Stress Categories and Stress Limit Factors for Class 1 Plate- and Shell-Type Supports Designed by Analysis — Piping Supports.....	86
NF-3623(b)-1	Elastic Analysis Stress Categories and Stress Limit Factors for Class 1, 2, and 3 Linear-Type Supports Designed by Analysis — Piping Supports.....	87
NF-3652(b)-1	Elastic Analysis Stress Categories and Stress Limit Factors for Class 2 and 3 Plate- and Shell-Type Supports Designed by Analysis — Piping Supports.....	88
<b>Article NF-4000</b>	<b>Fabrication and Installation.....</b>	<b>89</b>
NF-4100	General Requirements.....	89
NF-4110	Introduction.....	89
NF-4120	Certification of Materials and Fabrication by Support Certificate Holder.....	89
NF-4130	Repair of Material.....	89
NF-4200	Forming, Fitting, and Aligning.....	90
NF-4210	Cutting, Forming, and Bending.....	90
NF-4220	Support Tolerances.....	91
NF-4230	Fitting and Aligning.....	91
NF-4240	Requirements for Welded Joints.....	92
NF-4300	Welding Qualifications.....	92
NF-4310	General Requirements.....	92
NF-4320	Welding Qualifications and Records.....	92
NF-4330	General Requirements for Welding Procedure Qualification Tests.....	93
NF-4400	Rules Governing Making and Repairing Welds.....	95
NF-4410	Precautions to Be Taken Before Welding.....	95
NF-4420	Rules for Making Welded Joints.....	96
NF-4430	Welding of Attachments.....	96
NF-4440	Special Requirements for Welding.....	96
NF-4450	Repair of Weld Metal Defects.....	98
NF-4500	Brazing.....	99
NF-4510	Rules for Brazing.....	99
NF-4600	Heat Treatment.....	99
NF-4610	Welding Preheat and Interpass Requirements.....	99
NF-4620	Postweld Heat Treatment.....	100
NF-4660	Heat Treatment of Electroslag Welds.....	104
NF-4700	Requirements for Bolted Construction.....	104
NF-4710	Bolting and Threading.....	104
NF-4720	Bolting.....	104
<b>Figures</b>		
NF-4427-1	Fillet Weld Dimensions.....	97
NF-4441-1	Weld Joint Producing Through-Thickness Loading.....	98
<b>Tables</b>		
NF-4232-1	Maximum Allowable Offset in Final Butt Welded Joints.....	92
NF-4622.1-1	Mandatory Requirements for Postweld Heat Treatment (PWHT) of Welds.....	101
NF-4622.4(c)-1	Alternative Holding Temperatures and Times.....	102
NF-4622.7(b)-1	Exemptions to Mandatory PWHT.....	103

NF-4721(a)-1	Bolt Hole Sizes.....	105
NF-4721(b)-1	Tolerances on Oversized Holes.....	105
<b>Article NF-5000</b>	<b>Examination</b> .....	107
NF-5100	General Requirements for Examination .....	107
NF-5110	Procedures, Qualifications, and Evaluations.....	107
NF-5120	Time of Examination of Welds.....	107
NF-5200	Required Examination of Welds.....	107
NF-5210	Examination of Class 1 Support Welds .....	107
NF-5220	Examination of Class 2 and MC Support Welds .....	108
NF-5230	Examination of Class 3 Support Welds .....	108
NF-5240	Inertia and Continuous Drive Friction Welds .....	108
NF-5300	Acceptance Standards .....	109
NF-5320	Radiographic Acceptance Standards .....	109
NF-5330	Ultrasonic Acceptance Standards .....	109
NF-5340	Magnetic Particle Acceptance Standards .....	109
NF-5350	Liquid Penetrant Acceptance Standards .....	110
NF-5360	Visual Acceptance Standards.....	110
NF-5500	Qualifications and Certification of Nondestructive Examination Personnel.....	111
NF-5510	General Requirements .....	111
NF-5520	Personnel Qualification, Certification, and Verification.....	111
NF-5530	Records.....	112
<b>Article NF-8000</b>	<b>Certificates of Accreditation and Certification Documents</b> .....	113
NF-8100	General Requirements .....	113

**MANDATORY APPENDICES**

<b>NF-I</b>	<b>(In Preparation)</b> .....	115
<b>NF-II</b>	<b>Design of Single Angle Members</b> .....	115
<b>NF-III</b>	<b>Energy Absorbing Support Material</b> .....	120

**NONMANDATORY APPENDICES**

<b>NF-A</b>	<b>Structural Bolt Preloading</b> .....	122
<b>NF-B</b>	<b>Design Allowable Stresses for Plate and Shell and Linear Type     Supports</b> .....	126
<b>NF-C</b>	<b>Design Basis for Linear-Type Supports</b> .....	131
<b>NF-D</b>	<b>Tolerances</b> .....	134
