

Contents

Preface	v
About the Author	vii
Acknowledgements	ix
List of Figures	xv
List of Tables	xv
Chapter 1 Introduction to ASME GDTP Certification	1
1.1 Purpose of Professional Certification	1
1.2 History of the ASME GDTP Certification Program	1
1.3 Professional Competencies	4
1.3.1 Technologist Level	4
1.3.2 Senior Level	4
1.4 Qualifications	4
1.5 Certification Process	5
1.5.1 Application Procedure	5
1.5.2 Test Location and Dates	5
1.5.3 Certification	5
1.5.4 Examination Results	5
1.5.5 Recertification	6
Chapter 2 Personal Preassessment	11
2.1 Purpose of Personal Preassessment	11
2.2 Administration of the Examination	11
2.3 Preassessment Examination	12
2.4 Answer Sheet	18
2.5 Evaluation of the Results	19
2.5.1 Answers to Questions	19
2.5.2 Overall Percentage Correct	20
2.5.3 Identified Strengths and Weaknesses	20
2.6 Technical Review of Answers	20
Chapter 3 Preparation Strategies	31
3.1 Body of Knowledge	31
3.1.1 Technologist Level	31
3.1.2 Senior Level	32
3.2 Examination Structure	32

3.3	Examination Requirements	32
3.4	Distribution of Questions	32
3.4.1	Technologist Level Examination	33
3.4.2	Senior Level Examination	33
Chapter 4 Study Strategies		39
4.1	Guidelines for Personal Study	39
4.2	Linking Topics	39
4.3	Topic Linking Form	42
4.4	Topic Linking Practice Session	44
4.4.1	Technologist Level Links	44
4.4.2	Senior Level Links	53
4.5	Examination Strategies	64
4.6	Multiple-Choice Questions	64
4.6.1	Writing Multiple-Choice Questions	65
4.6.2	Answering Multiple-Choice Questions	66
Chapter 5 Technology Level Practice Examination		73
5.1	Purpose of the Examination	73
5.2	Administration of the Examination	73
5.3	Technologist Level Practice Examination	74
5.4	Answer Sheet	83
5.5	Answers, Links, and Evaluation of Results	84
5.5.1	Answers and Links	84
5.5.2	Evaluation of Test Results	85
5.6	Technical Review of Answers	86
Chapter 6 Senior Level Practice Examination		107
6.1	Purpose of the Examination	107
6.2	Administration of the Examination	107
6.3	Senior Level Practice Examination	108
6.4	Answer Sheet	116
6.5	Answers, Links, and Evaluation of Results	117
6.5.1	Answers and Links	117
6.5.2	Evaluation of Test Results	118
6.6	Technical Review of Answers	119

Chapter 7 Definition of Terms

139

7.1	Identification of Terms	139
7.2	Boundary	139
7.2.1	Inner Boundary	139
7.2.2	Outer Boundary	139
7.3	Datum	139
7.3.1	Datum Feature	139
7.3.1.1	True Geometric Counterpart	139
7.3.1.2	Datum Features Subject to Size Variations	139
7.3.2	Datum Feature Simulator	139
7.3.2.1	Simulated Datum	139
7.3.3	Datum Target	139
7.4	Dimension	140
7.4.1	Basic Dimension	140
7.4.2	Reference Dimension	140
7.5	Feature	140
7.5.1	Axis of a Feature	140
7.5.2	Center Plane of a Feature	140
7.5.3	Derived Median Line of a Feature	140
7.5.4	Derived Median Plane of a Feature	140
7.5.5	Feature of Size	140
7.5.5.1	Individual Feature of Size (Rule #1)	140
7.6	Material Condition Modifiers	140
7.6.1	Maximum Material Condition (MMC)	140
7.6.2	Least Material Condition (LMC)	140
7.6.3	Regardless of Feature Size (RFS)	141
7.7	Resultant and Virtual Condition	141
7.7.1	Resultant Condition	141
7.7.2	Virtual Condition	141
7.8	Size	141
7.8.1	Actual Size	141
7.8.1.1	Actual Local Size	141
7.8.1.2	Actual Mating Size	141
7.8.1.3	Actual Mating Envelope	141
7.8.2	Limits of Size	141
7.8.3	Nominal Size	141
7.8.4	Resultant Condition Size	141
7.8.5	Virtual Condition Size	142
7.9	Tangent Plane	142
7.10	Tolerance	142
7.10.1	Bilateral Tolerance	142

7.10.2	Geometric Tolerance	142
7.10.2.1	Form Tolerance	142
7.10.2.1.1	Flatness	142
7.10.2.1.2	Straightness	142
7.10.2.1.3	Circularity (Roundness)	142
7.10.2.1.4	Cylindricity	142
7.10.2.2	Orientation Tolerance	142
7.10.2.2.1	Angularity	142
7.10.2.2.2	Parallelism	142
7.10.2.2.3	Perpendicularity	142
7.10.2.3	Location Tolerance	143
7.10.2.3.1	Position	143
7.10.2.3.2	Concentricity	143
7.10.2.3.3	Symmetry	143
7.10.2.4	Profile Tolerance	143
7.10.2.4.1	Profile of a Line	143
7.10.2.4.2	Profile of a Surface	143
7.10.2.5	Runout Tolerance	143
7.10.2.5.1	Circular Runout	143
7.10.2.5.2	Total Runout	143
7.11	True Position	143
7.12	Full Indicator Movement	143

Appendices **144**

Appendix A	References	144
Appendix B	Topic links	146
