The Selection Committee that will nominate the Lecturer for each year will consist of five members of the Basic Engineering Group Operating Board [BEGOB]. The Chair will be appointed by the BEGOB Vice President from the At-Large Members of BEGOB. The Vice President shall select a member-at-large in his/her first or second year of service to serve as Chair-elect of the Selection Committee for the purpose of providing continuity on the Committee. The Chair-elect will serve as the Chair of the Selection Committee in his/her next year of service as member-at-large. The remainder of the Committee will consist of the other duly elected members-at-large of BEGOB. In instances where a division in the Basic Engineering Group has more than one duly elected member-at-large serving on BEGOB, the junior member(s) from that Division will be replaced on the Thurston Lecture Selection Committee by the designated division representative of a division which has no duly elected member-at-large on BEGOB. The designated division representative shall serve a term of three years or until a member of his or her division is duly elected as a member-at-large. For purposes of service as Chair or Chair-Elect of the Committee, the designated division representative will be considered to be equivalent to a member-at-large.
