| 3. Report of the Executive Committee   | H. Hamidzadeh                    | 2:35 pm        |
| 4. Technical Committee and IMECE Reports   | W. Chen                          | 2:45 pm        |
| <b>(Please limit each committee report to 3 minutes)</b>                               |                                  |                |
| (a) Design Automation  | Z. Mourelatos                    |                |
| (b) Design Education   | J. Mountain                      |                |
| (c) Design for Manufacturing and Life Cycle  | K. Saitou                        |                |
| (d) Design Theory and Methodology  | L. Shu                           |                |
| (e) Fastening and Joining  | E. V. Iarve                      |                |
| (f) Mechanisms and Robotics  | J. Ge                            |                |
| (g) Mechatronic and Embedded Systems and Applications                                  | P. Zingaretti                    |                |
| (h) Micro and Nano Systems   | G. Wiens                         |                |
| (i) Multibody Systems and Nonlinear Dynamics   | B. Balachandran                  |                |
| (j) Power Transmission and Gearing   | A. Singh                         |                |
| (k) Reliability, Stress Analysis, and Failure Prevention                               | T. Sawa                          |                |
| (l) Vehicle Design   | B. Gilmore                       |                |
| (m) Vibration and Sound  | B. Feeny                         |                |
| 5. Liaison Reports   |                                  |                |
