

REPORT OF ETGOB PERFORMANCE COMMITTEE

Richard C. Marboe, Chair
5 March 2004

Committee Function (per 1991 By-Laws): Establish methods, schedules, and procedures for conducting reviews of the past performance, present activities, and future plans of the Divisions and Subdivisions and provide guidance as necessary.

- Each division was asked by “Committee on Technical Planning” to complete a three page form called Parameters for Measuring a Division’s Health. Angela had to “remind” everyone to complete it. This was actually the first time that division chairs heard anything about it. We will now capitalize on it for the performance review. I need to get a copy of all of the responses from ETG divisions.
- I know of posters prepared for the TEC Division Fair by Aerospace, Noise Control & Acoustics, and Solid Waste Processing.
- I need to get copies of division annual reports and plans when completed.
