

CFD TC Meeting at IMECE03 in Washington, DC, November 2003

MINUTES

1. Following reorganization, FED must receive revenues from the Journal.
2. Joe Katz – JFE report – ASME Journals package – 19 (?). The Journal's impact factor is still not great. The impact factor depends upon citations and papers. Examples of impact factors: Nature-14; Fluid Mechanics Reviews - 5. JFE - 1.
3. Joe Katz –
 - a. We need standards for LES, especially for the many unresolved issues.
 - b. SP Vanka asked to be associate editor again. He has also served as JHT Associate Editor.
 - c. Tom Gatski was absolutely wonderful, so Joe asked him to stay on.
 - d. For the many applied papers that JFE receives, Joe is appointing Ogoto from Japan for papers on pumps and CFD.
 - e. Rather than recycling, we need to look for fresh people, young, upcoming individuals, young full professors
4. Special Issues of the Journal can be organized anytime.
5. Dave Halt – Industrial Relations Committee
 - a. CFD Session Organizers must appeal to industry for participation.
 - b. IN the past, we needed to accept not-so-good papers to keep the numbers up (?).
6. CFD Standards Sub-Committee will be presenting the JFE publication policy at a session on Friday 7:45 A.M.
 - a. Joe will place the policy on the JFE web, will ask for comments/feedback, will collect and send to us.
 - b. Comments will be accepted for 3-4 months, 6 months maximum.
 - c. At FEDSM04, the Sub-Committee will have a wrap up panel session.
 - d. Action Item: Ask Gopal for session at FEDSM04.**
7. No calls were presented for papers for Symposia or forums.
8. No other business, hence the meeting was adjourned.
