

UNDERGRADUATE MECHANICAL ENGINEERING STUDENTS

CALL FOR PRESENTATIONS

Internal Combustion Engine Division
ASME International

Invites Presentations for the

2013 Fall Technical Conference

October 13-16, 2013
Dearborn, Michigan USA

Hosted by

Wayne State University

Are you an undergraduate mechanical engineering student who is passionate about **internal combustion engines**? Would you like to participate in one of the world's leading internal combustion engine organizations **for free**? If so, then the Student Presentation Chair of the ASME Internal Combustion Engine Division invites you to submit a **1000-word extended abstract and 10-minute draft presentation** concerning the topic of your undergraduate work in internal combustion engines.

Maybe you:

- work in a laboratory at school that does internal combustion engine research.
- work on the engine of a collegiate race team or your own car.
- have innovative ideas for next generation advanced engines or alternative fuels.
- are an internal combustion engine enthusiast and would like to deliver a presentation on the subject.

We want to hear from you if you have an interest in internal combustion engines!

To be considered, submit a 1000-word abstract and 10-minute draft presentation (e.g., in Powerpoint) to the Student Presentation Chair by **April 19, 2013**. The Student Presentation Chair and a selection committee will **choose the top 2 presentations**. Then, those two students will be **invited to Dearborn, Michigan USA** to deliver their presentations to a group of leading experts in the internal combustion engine field at the ASME Internal Combustion Engine Division's Fall Technical Conference (October 13 – 16, 2013). As a participant of the conference, you'll get to attend other researcher's presentations and network with people working in this exciting and important field.

If your presentation is selected, your travel and lodging expenses are covered up to **\$1500**. You must be an ASME student member and be an undergraduate student on the date of submission to be selected.

Send your 1000-word abstract and 10-minute draft presentation by April 19, 2013 to:

Prof. Will Northrop
Student Presentation Chair
University of Minnesota
Email: wnorthro@umn.edu

WE WANT TO HEAR FROM YOU BY APRIL 19, 2013!
