

Application for ASME ISO 9000 Registration

Electronic copies of this form can be downloaded from www.asme.org/codes

Company name

Include the department, division, etc. as it would appear on the Certificate of Registration.

Address

Give the full address of the location for which this application is being submitted.

Additional locations (attach list)

Management representative

Include name, title, telephone number, fax number, and e-mail address.

Activity and requested dates

Requested dates should be several months in advance. Specifying a range of dates is sufficient.

Pre-assessment
Requested dates:

Assessment
Requested dates:

New or renewal assessment

Indicate whether this is an application for a new Certificate of Registration or the renewal of an existing Certificate.

New

Renewal *Expiration date:*

Scope category

Indicate the Scope Category(ies) for which registration is requested. A description of the Categories is enclosed.

Basic metals and fabricated metal products

Machinery and equipment

Engineering services

Reinforced thermoset-plastic tanks and vessels

Scope

Indicate the proposed Scope of your registration as you would like it to appear on your Certificate, e.g. "Design, manufacture, and installation of . . ." Be as specific as possible.

Description of products

Include only those products that fall within the Scope of Registration. (Note: "Products" includes services, software, hardware, and processed materials.)

Description of key processes

Include only those processes that fall within the requested Scope of Registration, e.g. machining, welding, NDE, assembly, etc.

Number of employees**Length of time ISO 9000 QMS has been implemented**

Combined program information

Fill out only if activities are to be coordinated with Shop Reviews, Surveys and/or Audits conducted for an ASME Accreditation Program.

Under combined programs, audit activities for ISO 9000 Registration and ASME Accreditation will be conducted concurrently. This reduces the total time and expenses of the ASME auditors, and thus, the fees charged to the applicant.

Accreditation Program

- Authorized Inspection Agency (AIA)
- Boiler and Pressure Vessel
- Nuclear Components
- Nuclear Materials
- Qualification of Elevator Inspectors (QEI)
- Reinforced Thermoset Plastic Corrosion Resistant Vessel fabricators ((RTP)

Expiration date of Certificate:

Accreditation Agreement

The organization listed on this application (the "Applicant"), and makes this application to The American Society of Mechanical Engineers (ASME) for a Certificate of Registration and use of the ASME 9000 Registration Mark. The Applicant:

- (1) Agrees to use the Certificate and Mark in accordance with the latest edition of the ASME "Procedure for Registration."
- (2) Agrees to return the Certificate anytime ASME may so request.
- (3) Accepts the conduct of announced or unannounced audits as required by the ASME Registration Committee. Access to the inspection site to conduct audits, including travel to and from the site, is the responsibility of the applicant. If access is blocked or impeded, ASME is not responsible for the applicant failing to receive, or continue to have Registration.
- (4) Agrees to indemnify and hold harmless ASME and its agents from and against any costs (including legal fees and expenses) and any direct, indirect, incidental or consequential damages (including loss of profits or business opportunity) arising out of any claim or cause of action in any way related to this Agreement or the subject matter hereof, including but not limited to claims based on contract, tort (including negligence), strict liability or breach of warranty (express or implied).
- (5) Understands that the Applicant's use of the ASME Registration Mark may be allowed provisionally by ASME in its discretion until a decision is made on an appeal of an action of an ASME subcommittee, committee or board and accepts the obligation to pay all legal fees and expenses and ASME's cost for recovering the Certificate if not returned.
