

Mechanical Engineering Education and Global Industry

Guillermo Carlos Risso, President, AMIME
Eloy Meza Fuentes, Secretary, AMIME

Asociación Mexicana de Ingenieros Mecánicos y Electricistas (AMIME)
Mexican Society of Mechanical and Electrical Engineers

April 1,
2006

Background

- Public Universities in Mexico
- Economic globalization started with the GATT and the NAFTA

Industry

- Mexican economy has opened its boundaries to multinational companies
- Energetic Industries:
 - ✓ Petróleos Mexicanos (PEMEX)
 - ✓ Comisión Federal de Electricidad (CFE)

Understanding, interchange and cooperation between universities and companies

Asociacion Mexicana de Ingenieros Mecanicos y Electricistas (AMIME) = Mexican Society of Mechanical and Electrical Engineers

- Promote cooperation among universities
- Allocate financial resources

Conclusions

- Make a permanent alliance between government, industry and international organizations to link professionals and students of mechanical and electrical engineering
- Allocate financial resources for training and teaching of professionals and students of mechanical and electrical engineering

- AMIME will organize forums, congress and meeting with students at an international level with the support of ASME and CMES.

Thank you CMES and ASME for the opportunity to
present at the 2006 INTERNATIONAL
MECHANICAL ENGINEERING EDUCATION
CONFERENCE
