

Introducing ...

... the Presenter Practice Program

... the Presenter Practice Program

The Presenter Practice Program is an opportunity for ASME trainers, presenters, and facilitators to rehearse, receive peer review and a digital video of their rehearsal, and develop a plan for improving their presentation and facilitation skills.

This program will be launched at the 2009 ASME Congress, and we are currently accepting requests for time on the schedule. Program information and a sign-up form are online at http://volunteer.asme.org/unit/Presenter_Practice_Program.cfm

For information, please contact Bill Robbins, Training Committee Chair, wrobb13001@aol.com, Abe Hassan, HassanA@asme.org, or Marian Heller, HellerM@asme.org.
