# **TERMS and CONDITIONS**

## **2. Authorized Site and Users**

ASME grants to the Subscriber and Authorized Users at the Subscriber's Authorized Site (s) online access to the ASME Online Journals. This grant extends only to the Subscriber and such Authorized Users individually and may not be transferred to, or extended to, others. For purposes of this License, the "Authorized Site" is described in Appendix A. Remote campuses or remote sites not listed in this agreement are not allowed under this license.

The following are Authorized Users for purposes of this Agreement:

Those who are (i) officially affiliated with the Subscriber at the Subscriber's locations listed on Appendix A. (Table of IP-numbers) and (ii) permitted by the Subscriber to access the Licensed Products by secure authentication.

The Subscriber will exercise reasonable vigilance and shall be responsible for all access control and security measures necessary to ensure that the Subscriber's IP addresses are not used to access the online platform by other than Authorized Users. The Subscriber warrants and represents that common and reasonable methods will be used to inform Authorized Users of general terms and conditions for the use of online information products that are consistent with this License. Furthermore, the Subscriber will make every attempt to enforce the terms of this License upon receiving information from ASME or any other source that reasonably indicates that one or more Authorized Users is in violation of the terms of this License.

## **3. IP Addresses**

Authorized Users will be recognized and authorized by their Internet address. IP addresses and/or address ranges for the Subscribing Institution are indicated in the Appendix A. For additional information regarding IP Addresses consult Appendix B.

## **4. Permitted Use**

The Subscriber and Authorized Users are permitted online access to the ASME Online Journals indicated in Section 1, and may download, save, or print text, search results, or other information from the ASME Online Journals solely for the private use or research of the Subscriber and the Authorized Users. The Subscriber and Authorized Users may only use this online access in a way that conforms to all applicable laws and regulations.

ASME as the copyright owner of each the online journals included in this license, grants the Subscriber and Authorized Users permission for brief quotations from the content of the online journal articles with the customary acknowledgment of the source, and to copy and transmit content from individual online journal articles in "person-to-person" and non-systematic scholarly exchanges of information between Authorized Users and specific individuals.

The Subscriber specifically agrees that use by the Subscriber or Authorized Users other than indicated above is a violation of the terms of this License.

## **5. Prohibitions on Certain Uses**

Altering, recompiling, systematic or programmatic copying, reselling, redistributing, publishing or republishing (beyond the brief quotations permitted under Section 4) of any journal text, output, search results, or other information from the ASME Online Journals, or any portion thereof, including without limitation, copyright, proprietary and/or other legal notices contained therein, in any form or medium is prohibited. Systematic or programmatic downloading (for ASME Online Journals Institutional Site and Multi-site License, 2006

example, downloading entire journal issues), service bureau redistribution services, printing for fee-for-service purposes and/or the systematic making of print or electronic copies for transmission to non-subscribers or non-subscribing institutions (such as in “interlibrary loan”) are prohibited.

Downloading portions of the ASME online journals for the purpose of creating pre-loaded systematic and persistent local copies (not including transient, dynamic caches of individually requested material) for redistribution is prohibited. All rights not expressly granted are reserved to the stated copyright holder of the ASME online journals. The Subscriber and Authorized Users may not circumvent ASME’s access control systems or use ASME’s systems or services to make any attempt to gain unauthorized access to any other system or network.

ASME shall not be required to distribute, and Subscriber shall not redistribute, the online platform being used to host the journals or the ASME online journals included therein to a country where the export thereof is prohibited by U.S. law or regulation.

## **6. Duration of License**

This License is for the subscription year \_\_\_\_\_, beginning (date) \_\_\_\_\_ and ending date \_\_\_\_\_ or automatically renew year to year, and will become effective on receipt by ASME of the License signed by an authorized agent of the Subscriber, and, subject to the terms and conditions of this License. This License will remain in effect, automatically renewing year to year, while the Subscriber maintains or continues to renew a current paid online subscription to the ASME online journals.

This License will terminate:

- a. Subject to (b.) and (c.) below, if the print or online subscription lapses (termination is effective at the end of the paid subscription period).
- b. Following thirty (30) days’ prior written notice that any term or condition of this License is violated for any reason, knowingly or unknowingly, provided that violation is not remedied with all reasonable haste upon notification. The foregoing notwithstanding, ASME reserves the right to suspend access to the service immediately upon detecting a breach of this License. ASME will use reasonable effort to notify the Subscriber as soon as possible, usually within three (3) days of any such suspension of service, by sending e-mail to the address you supplied in Section 1.
- c. Following thirty (30) days’ prior written notice by ASME of any change in the terms of this License, receipt by ASME of notice from the Subscriber in writing, or by e-mail or by fax that the Subscriber does not accept such change or changes. (In the absence of any such objection by Subscriber, ASME's new terms shall apply.) This License shall renew automatically for the term of any Print or Online Subscription upon receipt by ASME of payment for that subscription.

## **7. Copyright**

The ASME online journals and their content, including abstracts, are copyrighted by ASME as indicated in Section 1 or as indicated within the journal. The online hosting platform and the ASME online journals are subject to all applicable copyright, database protection and other rights of the stated owner and publisher under the laws of the United States and other countries. Copyright notices in the online hosting platform and the ASME online may not be

removed, obscured, or modified in any way. Unauthorized copying or redistribution of any content the online hosting platform is a violation of copyright laws.

## **8. Failure of Performance**

Following online access approval, the Subscriber and Authorized Users will be permitted to attempt online access to the ASME online journals at any time. ASME, however, will not be liable for any delay, downtime, transmission error, software or equipment incompatibilities, force majeure or other failure of performance. ASME will use commercially reasonable efforts to correct any material performance problem brought to its attention and may suspend performance pending such correction.

## **9. Usage Rights of Lapsed Subscribers**

The following section only applies to those online journals published under the copyright of the American Society of Mechanical Engineers, as indicated in Section 1.

ASME will use reasonable efforts to retain in an archive all electronic information published by the American Society of Mechanical Engineers, starting with the 2000 subscription year. Upon lapse of subscription, no additional service is provided.

## **10. Disclaimer of Warranties; Limitation of Liability; Indemnification**

ASME warrants that it is entitled to grant the licenses granted in this License, and is authorized to execute this License as indicated in Section 1. EXCEPT AS SET FORTH IN THE PRECEDING SENTENCE, ASME MAKES NO WARRANTY OR REPRESENTATION OF ANY KIND, EXPRESS OR IMPLIED, WITH RESPECT TO THE ONLINE JOURNALS AND ONLINE PLATFORM USED TO HOST THE JOURNALS, INCLUDING THEIR QUALITY, ORIGINALITY, SUITABILITY, SEARCHABILITY, OPERATION, PERFORMANCE, COMPLIANCE WITH ANY COMPUTATIONAL PROCESS, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

ASME SHALL NOT BE LIABLE FOR: EXEMPLARY, SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR OTHER DAMAGES, ARISING OUT OF OR IN CONNECTION WITH THE SUBSCRIPTION OR LICENSES GRANTED HEREUNDER, THE USE OR INABILITY TO USE ANY ASME ONLINE JOURNAL, ASME'S PERFORMANCE UNDER THIS LICENSE, TERMINATION OF THIS LICENSE BY ASME OR THE LOSS OF DATA, BUSINESS OR GOODWILL, EVEN IF ASME IS ADVISED OR AWARE OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT SHALL THE TOTAL AGGREGATE LIABILITY OF ASME FOR ANY CLAIMS, LOSSES OR DAMAGES ARISING OUT OF ANY BREACH OR TERMINATION OF THIS LICENSE EXCEED THE TOTAL AMOUNT PAID BY THE SUBSCRIBER TO ASME FOR THE ONLINE JOURNAL SUBSCRIPTION, BUT NOT LESS THAN TWENTY-FIVE DOLLARS (\$25.00), FOR THE CURRENT SUBSCRIPTION YEAR IN WHICH SUCH CLAIM, LOSS OR DAMAGE OCCURRED, WHETHER IN CONTRACT, TORT, OR OTHERWISE, INCLUDING WITHOUT LIMITATION DUE TO NEGLIGENCE. The foregoing limitation of liability and exclusion of certain damages shall apply regardless of the success or effectiveness of other remedies. No claim may be made against ASME unless suit is filed thereon within one (1) year after the event giving rise to the claim.

The Subscriber assumes sole responsibility for all use of the online hosting platform and the ASME online journals by the Subscriber and its Authorized Users. In the event of a breach of this License by the Subscriber or Authorized Users, the Subscriber agrees to indemnify and hold ASME harmless from and against any and all claims, liabilities, damages, expenses

(including attorneys' fees and experts' costs, penalties, and fees, if any, for the enforcement of this License and otherwise for ASME's defense of indemnified claims), losses and threatened losses arising from, or in connection with, that breach, including without limitation, claims of unauthorized use.

Subscriber may not make any changes to this License without written consent by ASME.

The Subscriber must pay any taxes (including but not limited to any applicable Value Added Taxes, Sales Taxes, and Import Taxes) other than taxes on ASME's net income, arising out of the Subscriber's use of the online hosting platform and the ASME online journals and/or the rights granted under this License.

The Subscriber may not assign or transfer its rights under this License. The provisions of Sections 2, 4, 5, 7, 9, 10, and 11 hereof shall survive any expiration or termination of this License.

## Appendix B. INSTITUTIONAL IP ADDRESSES/RANGES

The ASME Online Journals, whether hosted directly by ASME or indirectly through a subcontractor, has enabled IP-address-based access control for institutional subscribers. Each computer that accesses the Internet is assigned an IP address, commonly represented as four number groups separated by dots (e.g., 192.58.150.10). All computers on a local area network, or subnet, may have the first two or three number groups in common. Access to ASME journal(s) from your institution's Authorized Site will be provided based on the IP addresses and/or ranges you provide. (It is recommended that you consult with your network administrator to determine your IP addresses, subnets, and other critical information about your institution's network configuration.) IP addresses for locations other than the Authorized Site will not be accepted under this License; if you are seeking online access for multiple sites, please contact the **ASME Customer Service Office at [asmeonlinejournals@ASME.org](mailto:asmeonlinejournals@ASME.org) or phone 1-800-843-2763 or 973-882-2239.**

ASME will accept IP addresses and/or ranges (Class B, Class C, and single station) via this form (attach additional sheets as necessary). Note that Class B requests will be subject to additional review by ASME Online Journals Technical Staff. Please contact the OJPS Customer Service Office (see above) if you need to register a proxy or caching server, or if you have any additional questions. You may also consult the ASME Web site (<http://www.ASME.org/ojs/register.html>) for additional information on registering for online access.

All IP address information will be verified by ASME and/or ASME service providers, and your network contact (which must be provided below) will be contacted if additional clarification is necessary.

Please type your IP addresses/ranges in the following formats [please contact the Customer Service Office (see above) if you require assistance]:

Class B Network: Enter the first two (network) numbers and use asterisks for the host addresses, i.e., 128.58.\*.\*

Class C Network: Type the first three (network) numbers and an asterisk for the host addresses, i.e., 192.58.150.\* (ranges are acceptable; type 192.58.150.\* - 192.58.152.\* to indicate Class C ranges)

Single Station(s): Type all four numbers, i.e., 192.40.158.10 (ranges are acceptable; type 192.58.150.10 - 192.58.150.30 to indicate ranges of single stations)
