

15-17 July 2010, Istanbul

WORLD  
HYDROGEN ENERGY  
SUMMIT

Decision making for a sustainable future

# World Hydrogen Energy Summit, 15-17 July 2010, Istanbul

- A man-made global climate change has started
- Fossil fuel shortage is a reality
- An energy paradigm shift is needed to prevent the upcoming crisis
- **The hydrogen energy system is a real solution to all these problems**

**The World Hydrogen Energy Summit will be the opportunity to decide for action.**
