Performance requirements for automatic compensating valves for individual showers and tub/shower combinations
Legal Notice for Harmonized Standard
Jointly Developed by ASME, ASSE, and CSA

Intellectual property rights and ownership
As between The American Society of Mechanical Engineers ("ASME"), American Society of Sanitary Engineering ("ASSE"), and Canadian Standards Association ("CSA") (collectively "ASME, ASSE, and CSA") and the users of this document (whether it be in printed or electronic form), ASME, ASSE, and CSA are the joint owners of all works contained herein that are protected by copyright, all trade-marks (except as otherwise noted to the contrary), and all inventions and trade secrets that may be contained in this document, whether or not such inventions and trade secrets are protected by patents and applications for patents. The unauthorized use, modification, copying, or disclosure of this document may violate laws that protect the intellectual property of ASME, ASSE, and CSA and may give rise to a right in ASME, ASSE, and CSA to seek legal redress for such use, modification, copying, or disclosure. ASME, ASSE, and CSA reserve all intellectual property rights in this document.

Disclaimer and exclusion of liability
This document is provided without any representations, warranties, or conditions of any kind, express or implied, including, without limitation, implied warranties or conditions concerning this document's fitness for a particular purpose or use, its merchantability, or its non-infringement of any third party's intellectual property rights. ASME, ASSE, and CSA do not warrant the accuracy, completeness, or currency of any of the information published in this document. ASME, ASSE, and CSA make no representations or warranties regarding this document's compliance with any applicable statute, rule, or regulation.

IN NO EVENT SHALL ASME, ASSE, and CSA, THEIR RESPECTIVE VOLUNTEERS, MEMBERS, SUBSIDIARIES, OR AFFILIATED COMPANIES, OR THEIR EMPLOYEES, DIRECTORS, OR OFFICERS, BE LIABLE FOR ANY DIRECT, INDIRECT, OR INCIDENTAL DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES, HOWSOEVER CAUSED, INCLUDING BUT NOT LIMITED TO SPECIAL OR CONSEQUENTIAL DAMAGES, LOST REVENUE, BUSINESS INTERRUPTION, LOST OR DAMAGED DATA, OR ANY OTHER COMMERCIAL OR ECONOMIC LOSS, WHETHER BASED IN CONTRACT, TORT (INCLUDING NEGLIGENCE), OR ANY OTHER THEORY OF LIABILITY, ARISING OUT OF OR RESULTING FROM ACCESS TO OR POSSESSION OR USE OF THIS DOCUMENT, EVEN IF ASME OR CSA HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES.

In publishing and making this document available, ASME, ASSE, and CSA are not undertaking to render professional or other services for or on behalf of any person or entity or to perform any duty owed by any person or entity to another person or entity. The information in this document is directed to those who have the appropriate degree of experience to use and apply its contents, and ASME, ASSE, and CSA accept no responsibility whatsoever arising in any way from any and all use of or reliance on the information contained in this document.

ASME, ASSE, and CSA have no power, nor do they undertake, to enforce compliance with the contents of the standards or other documents they jointly publish.

Authorized use of this document
This document is being provided by ASME, ASSE, and CSA for informational and non-commercial use only. The user of this document is authorized to do only the following:

If this document is in electronic form:
• load this document onto a computer for the sole purpose of reviewing it;
• search and browse this document; and
• print this document if it is in PDF format.

Limited copies of this document in print or paper form may be distributed only to persons who are authorized by ASME, ASSE, and CSA to have such copies, and only if this Legal Notice appears on each such copy.

In addition, users may not and may not permit others to
• alter this document in any way or remove this Legal Notice from the attached standard;
• sell this document without authorization from ASME, ASSE, and CSA; or
• make an electronic copy of this document.

If you do not agree with any of the terms and conditions contained in this Legal Notice, you may not load or use this document or make any copies of the contents hereof, and if you do make such copies, you are required to destroy them immediately. Use of this document constitutes your acceptance of the terms and conditions of this Legal Notice.
Performance requirements for automatic compensating valves for individual showers and tub/shower combinations
Commitment for Amendments

This Standard is issued jointly by The American Society of Mechanical Engineers (ASME), the American Society of Sanitary Engineering (ASSE), and the Canadian Standards Association (CSA). Amendments to this Standard will be made only after processing according to the Standards development procedures of ASME, ASSE, and CSA.

Preface  xiii

1 Scope  1

2 Reference publications and definitions  2
  2.1 Reference publications  2
  2.2 Definitions  2

3 Design and general requirements  3
  3.1 Types of devices  3
  3.2 Accessible designs  3
  3.3 Minimum rated flow  3
  3.4 Pressure  3
  3.5 Temperature  3
  3.6 Servicing  3

4 Performance requirements and test methods  4
  4.1 General  4
  4.2 Conditioning  4
    4.2.1 Preconditioning  4
  4.2.2 High-temperature conditioning  4
  4.3 Working pressure test  5
    4.3.1 Purpose  5
    4.3.2 Procedure with the valves closed  5
    4.3.3 Procedure with the outlet(s) blocked  5
    4.3.4 Test temperatures and pressures  5
    4.3.5 Failure criteria  6
  4.4 Maximum operating torque or force adjustment test  6
    4.4.1 Purpose  6
    4.4.2 Procedure  6
    4.4.3 Failure criteria  6
  4.5 Life cycle tests  6
    4.5.1 Purpose  6
    4.5.2 Procedure — Operating controls  6
    4.5.3 Procedure — Internal elements  7
    4.5.4 Working pressure  7
    4.5.5 Maximum torque or operating force  8
    4.5.6 Failure criteria  8
  4.6 Pressure and temperature variation test  8
    4.6.1 Purpose  8
    4.6.2 Data gathering, all types of devices  8
    4.6.3 Procedure — All types of devices  8
    4.6.4 Procedure — Type P devices  9
4.6.5 Procedure — Type T devices 9
4.6.6 Procedure — Type T/P devices 9
4.6.7 Failure criteria — Type P devices 9
4.6.8 Failure criteria — Type T devices 10
4.6.9 Failure criteria — Type T/P devices 10
4.7 Water supply failure test — All types 10
4.7.1 Purpose 10
4.7.2 Procedure 10
4.7.3 Failure criteria 10
4.8 Mechanical temperature limit stop test 10
4.8.1 Purpose 10
4.8.2 Procedure 11
4.8.3 Failure criteria 11
4.9 Outlet temperature and flow capacity test 11
4.9.1 Purpose 11
4.9.2 Procedure for all devices 11
4.9.3 Failure criteria 12
4.10 Hydrostatic pressure test 12
4.10.1 Purpose 12
4.10.2 Procedure 12
4.10.3 Failure criteria 12

5 Markings, packaging, and installation instructions and included literature 13
5.1 Markings 13
5.1.1 General 13
5.1.2 Visibility of markings 13
5.1.3 Temperature control setting identification 13
5.2 Installation and maintenance instructions 13
5.2.1 Instructions 13
5.2.2 Temperature limit setting 13
5.3 Packaging 13

Annexes
A (informative) — Verifying the time constant of the temperature-measuring equipment 14
B (informative) — Temperature variation for thermostatic-compensating valves 16

Tables
1 — Life cycle test for the control mechanism 7

Figures
1 — Set-up for high-temperature conditioning, pressure and temperature variation, and water supply pressure loss tests 5
2 — Set-up for life cycle test for automatic compensating valves 7
